

DATA CENTER Direct Airside Economizer Cooling Solutions

Munters FA6 Adiabatic Media

FA6™ direct evaporative cooling and humidifying system is a high-performance, low operating cost solution available in a wide range of sizes designed for integration into air-handling systems. The system features one or more cassettes with GLASdek™ non-combustible evaporative media that allows for use of water straight from the tap.

Benefits:

- ◆ High efficiency and ultra-low energy use
- ◆ Low running and maintenance costs
- ◆ No water treatment required
- ◆ Safe and hygienic with legionella-blocking technology
- ◆ The FA6 can be easily controlled to address even the most demanding conditions. A full range of accessories allows it to adapt to many different applications.

Munters FA6 Packaged (DASE) Direct Airside Economizer

- Up to 900 KW critical load
- Up to 150,000 CFM
- Munters Factory Controls Package
- Factory Testing Solution Simulating DEC turndown
