

Applied Air Solutions

Manufacturing Partners

Desert Aire

Industry leading manufacturer of indoor pool dehumidification, indoor farming / grow room and 100% outside air dehumidification equipment.

Fuji

Variable frequency drives (VFD's) manufactured for the HVAC market that include an industry best 5-year warranty, on site start-up and after sales service support.

Innovative Air Technologies

Manufactures desiccant dehumidifiers and critical process AHU's for low dew point applications including, food processing, clean rooms, ice rinks, industrial processes and surgical suites.

Klimak

World leader in custom air handling, fan coil and washdown units for medical, industrial & large scale commercial projects. Klimak is known for its high quality, innovative construction.

Munters

World leader in large scale data center cooling equipment that include wet/dry, direct/indirect packaged and split cooling solutions, adiabatic humidification systems and chilled water CRAH's.

Quest

QUEST

Manufactures a wide array of packaged refrigeration and desiccant based dehumidification equipment for a variety of applications including food & beverage, industrial manufacturing and storage.

RuppAir

Leading manufacturer of dedicated outside air dehumidifiers (DOAS), direct/indirect fired make-up air units, HVLS and general ventilation fans for industrial and commercial applications.

Superior Radiant Products

SUPERIOR RADIANT PRODUCTS

An industry leader in the design and manufacture of energy efficient infrared heating solutions dedicated to providing superior technology and superior performance.
